Examples of layouts

OVERVIEW

The purpose of these layouts is to offer inspiration for space planning.

An endless array of different arrangements can be created from these layouts.

The following in particular are not binding:

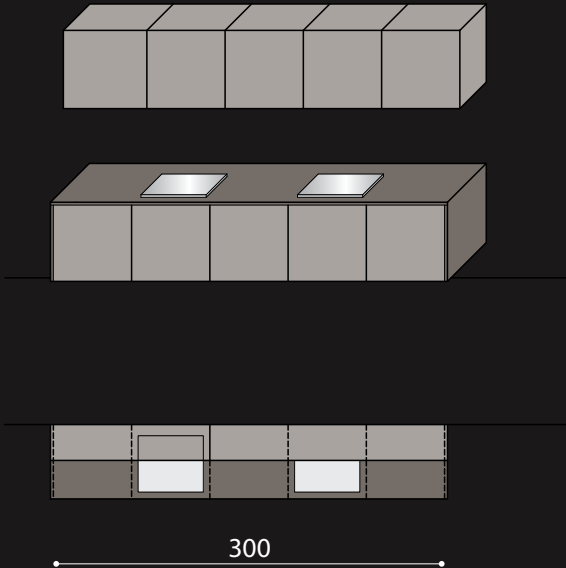

- The overall dimensions; the dimensions of the base, wall and tall units, wall-hung base units, etc.
- Type of opening method (doors with grip recesses or handles).
- Type of module (jumbo drawers, drawers, hinged doors, etc.)
- Position and size of sinks, hobs, ovens, microwave ovens.
- The presence of splashbacks/back panels.
- Worktop and breakfast bar thicknesses.
- Hood type.

Product

STYLING: MOOD 01

The moods shown on these three pages can be used as inspiration to create the style of the showroom space.

General instructions:

- Use neutral or plain-coloured objects in various materials.
 - The drawers and jumbo drawers should always be fitted with accessories and filled with cutlery and pots and pans.
 - Any vases should be filled with dry branches, real plants or the like.
- Avoid using artificial flowers and plants.
