About Cesar

CUCINE PER PASSIONE

Il piacere di stare insieme e di essere circondati dalle cose amate sono i valori intorno ai quali si compongono le nostre case. Valori che gli arredi Cesar arricchiscono con il loro stile raffinato. Cucine dove estetica, funzionalità e qualità sono garantite dalla costante ricerca che Cesar svolge con passione da oltre quarant'anni. Cesar oggi significa cucine che nascono dall'intuizione creativa e dall'utilizzo di materiali innovativi, per ambienti sempre accoglienti e belli da vivere.

Cesar propone soluzioni d'arredo dalle forme essenziali, che offrono al tempo stesso un'elevata possibilità di personalizzazione nei volumi, nei colori e nelle stesse funzioni. Un design chiaro, immediato ed emozionante che consente a tutti di creare, con libertà e soddisfazione, il proprio ambiente domestico. Nuovi materiali, finiture, dinamicità di volumi e forme, danno spazio a proposte compositive in linea con le attuali tendenze abitative. Un'eccellenza tutta Made in Italy per uno stile che ha conquistato il mondo.

PASSIONATE ABOUT KITCHENS

The pleasure of spending time with loved ones, surrounded by objects you are fond of is one of the values on which our homes are founded. Values that Cesar's furniture enhances with its refined style.

Kitchens in which aesthetics, functionality and quality are guaranteed by the constant research that Cesar has been conducting with a passion for over forty years. Today, Cesar is synonymous of kitchens that are the outcome of creative intuition and result from the use of innovative materials for homes that are always cosy and a wonder to live in.

Cesar offers minimalist furniture that still has a great customisation potential in terms of volumes, colours and functions. A clear, immediate and exciting design that allows everyone to create his/her own home in total freedom and with satisfying results. New materials, finishes and dynamic volumes and shapes create arrangements in line with current living trends. This excellence is entirely Made in Italy and is expressed with a style that has conquered the world.

GARANZIE

Per Cesar la qualità non è un optional, ma un ingrediente fondamentale: le cucine, garantite ben 5 anni, hanno superato i severi test degli istituti di qualità internazionali e vengono realizzate con un processo produttivo rigorosamente a norma UNI EN ISO 9001:2008. A tutela del benessere dell'ambiente domestico, Cesar produce scocche atossiche, realizzate in residui di legno per la salvaguardia delle foreste.

GUARANTEES

For Cesar, quality is not an option but a fundamental ingredient: the kitchens have nothing less than a 5-year guarantee and have passed the strict tests of the International Quality Institutes and are constructed using a production process that strictly adheres to the UNI EN ISO 9001:2008 standards. For healthy homes and to protect our forests, Cesar produces non-toxic carcasses made from wood by-products.

Certificazione dei sistemi di gestione per la qualità secondo UNI EN ISO 9001:2008
Certification of quality management systems according to UNI EN ISO 9001:2008

ECOSOSTENIBILITÀ

L'uomo e il suo benessere sono al centro delle attenzioni di Cesar, da sempre.

Per questo l'azienda si adegua alle normative ambientali internazionali e adotta nella sua attività produttiva soluzioni innovative per tutelare l'ambiente e la salute del consumatore. Valori che trovano piena espressione nei suoi arredi grazie all'uso di pannelli ecologici Idroleb, a bassissima emissione di formaldeide, e al marchio FSC® che garantisce la tracciabilità del legno utilizzato e la sua provenienza da foreste fruite in modo responsabile.

ECO-SUSTAINABILITY

Man and his wellbeing have always been the focus of Cesar's attention. This is why the company complies with international environmental regulations and adopts innovative solutions in its production activities to protect the environment and the health of consumers. These values are fully expressed in its furniture by using ecological Idroleb panels that have a very low emission of formaldehyde as well as wood panels bearing the FSC® mark that guarantees the traceability of the wood used and that it comes from responsibly managed forests.
